NOTE: For years many two-year institutions were not included in the Higher Education General Information Survey (HEGIS) universe, so that for coverage purposes, headcount enrollments defined by the Alabama Department of PostSecondary Education were reported. With the establishment of the Integrated Postsecondary Education Data System (IPEDS), ALL INSTITUTIONS will be covered. For consistency across higher education, headcounts for two-year colleges will be reported as defined under IPEDS. The counts differ by the exclusion of students not enrolled for degree/award credit.

* Includes class in mining technology.

ALABAMA COMMISSION ON HIGHER EDUCATION

Created by the Legislature in 1969, the Alabama Commission on Higher Education is charged with the responsibility of coordinating public higher education in Alabama.

The Commission is devoted to representing the citizens' higher-education interests to the Governor and Legislature, while at the same time objectively presenting the needs of the colleges and universities to the state.

In fulfilling its responsibility to approve new programs, review existing programs, formulate annual budget recommendations, coordinate student financial aid programs and chart long-range goals for higher education, the Commission matches the strengths of the 57 institutions with the state's available financial resources.

To ensure the decisions are made with an awareness of the educational and financial consequences, the Alabama Commission on Higher Education provides data; responds to inquires; conducts studies; and offers other assistance on higher education matters to the Governor, the Legislature, the institutions and the citizens of Alabama.

The Commission is composed of 12 members - 10 appointed by the governor, one by the lieutenant governor and one by the speaker of the House - who serve staggered nine-year terms.
